PURCHASE REQUEST

DOCUMENT APPROVAL ROUTING SYSTEM | OCR TEST SAMPLE

Document details

Document type:	Purchase request
Applicant name:	Kabir Singh
Date:	06 November 2026
Version:	Revised resubmission, responding to Department Head remarks

Request information

Employee ID	TEST-3159
Department	IT
Item requested	Laptop computers
Quantity	5 units
Estimated total	INR 3,25,000 (selected quotation, Vendor A)
Preferred delivery	Within 30 days

Business justification (updated)

The five laptops currently used as QA test devices are about five years old. Their batteries hold less than an hour of charge, their 8 GB memory is not enough to run the current test builds and emulators together, and two units no longer boot reliably. Test runs now take about twice as long as planned and are repeated when a device fails. Replacing all five devices lets the QA team run tests in parallel and keeps release testing on schedule.

Vendor quotations attached

Vendor	Quote ref.	Unit price (INR)	Total for 5 (INR)	Delivery
Vendor A (selected)	QT-A-2026-114	65,000	3,25,000	21 days
Vendor B	QT-B-2026-087	68,000	3,40,000	30 days
Vendor C	QT-C-2026-203	66,500	3,32,500	25 days

Vendor A is recommended: lowest total price and the shortest delivery time, within the 30 day requirement.

Applicant declaration

I confirm that the information above is provided for workflow testing purposes.

Applicant: Kabir Singh

This is a fictional sample document for testing the Department Head → Finance Manager → COO route. Vendor names, quotation references and device details are invented for testing.
